**Notes to Financial Statements** 

September 30, 2004 (Unaudited – See Notice)

# 1. Nature of Operations and Going Concern

The Company is in the process of actively exploring and developing its mineral properties and has not yet determined whether these properties contain mineral resources or ore reserves. The Company is considered to be in the exploration stage.

The recoverability of amounts shown for mineral property interests is dependent upon one or more of the following:

- the discovery of ore reserves;
- the ability of the Company to obtain financing to complete development; and
- future profitable production from the properties or proceeds from disposition.

At September 30, 2004, the Company had incurred a deficit of \$12,885,275 and had working capital of \$1,476,044, which is sufficient to achieve the Company's planned business objectives for fiscal 2004. However, the Company may require additional financing, if the Company elects to expand it's current 2004 exploration programs and/or property commitments (see Subsequent Events).

These financial statements have been prepared on a going concern basis, which assumes the realization of assets and liquidation of liabilities in the normal course of business. The Company's ability to continue as a going concern is dependent on continued financial support from its shareholders and other related parties, the ability of the Company to raise equity financing, and the attainment of profitable operations, external financings and further share issuances to meet the Company's liabilities as they become payable. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary, should the Company be unable to continue as a going concern.

#### 2. Significant Accounting Policies

#### (a) Use of estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

#### (b) Basis of presentation

The accompanying interim financial statements have not been reviewed by an Auditor and are prepared in accordance with GAAP in Canada with respect to the preparation of interim financial statements. Accordingly, they do not include all of the information and disclosure required by Canadian GAAP in the preparation of annual financial statements. The accounting policies used in the preparation of the accompanying unaudited interim financial statements are the same as those described in the annual financial statements and the notes thereto for the year ended December 31, 2003. In the opinion of management, all adjustments considered necessary for fair presentation have been included in these financial statements. The interim financial statements should be read in conjunction with the Company's financial statements including the notes thereto for the year ended December 31, 2003.

#### (c) Certain comparative figures

#### **Notes to Financial Statements**

September 30, 2004 (Unaudited – See Notice)

Certain comparative figures have been reclassified to conform to the current period's presentation.

#### 3. Marketable Securities

Marketable securities are carried at the lower of cost or quoted market value. When market value is below cost, any unrealized loss is charged to income. During the quarter, marketable securities were written down by \$Nil. The quoted market value of marketable securities at September 30, 2004 was \$1,605,000.

Included in marketable securities are 167,647 common shares of Fjordland Exploration Inc., a company related by virtue of a common director and 1,720,000 common shares of Diamonds North Resources Ltd., a company related by virtue of another common director.

#### 4. Prepaid Expenses

In the previous quarter, prepaid expenses included a loan receivable from the Company's drill contractor, which was repaid during the quarter. The loan bore interest at Bank of Montreal prime lending rate plus 3% and was repaid by applying 50% of the invoices rendered by the drill contractor against the loan. Due to the short-term nature of the loan receivable, the Company did not classify this amount as a separate line item on the balance sheet. The Company collected \$2,803 in interest on the loan.

# 5. Bid Deposits

In the prior fiscal year, the Company filed two applications with the Mining Recorder's Office for prospecting permits in Nunavut and was required to provide a cash deposit of \$330,642. The Company elected to withdraw the applications and received a refund of the deposit less the application fee.

# (a) Sarah Lake Joint Venture, Labrador

The Company owns a 48% interest in the Sarah Lake Joint Venture, which was formed in 1998. An option was granted to Falconbridge Limited ("Falconbridge") in 2001, requiring Falconbridge to incur \$4,000,000 in exploration expenditures by 2006 to earn a 50% joint venture interest. On April 16, 2004, Donner Minerals, the operator of the joint venture, informed the Company that Falconbridge had elected to terminate the option.

# 6. Mineral Properties (continued)

### (b) Green Bay, Newfoundland

The Company holds a 100% interest in the Green Bay property. In the prior fiscal year, the Company sold four claim blocks within the Green Bay property (mineral exploration license 4870) to Richmont Mines Inc. ("Richmont") in consideration for a royalty of \$25 for each ounce of gold produced. Richmont notified the Company that it would not be pursuing further exploration and at the election of the Company, Richmont will return the property.

# (c) Adlatok 1, Labrador

The Company owns a 59.5% interest in the Adlatok 1 property.

# (d) Sally, Labrador

The Company owns a 100% interest in the Sally property.

# (e) Qimmiq, Nunavut

The Company has an option agreement with BHP Billiton Diamonds Inc. ("BHP Billiton") to explore for gold on 50,000 hectares of Nunavut Tunngavik Incorporated leases on Baffin Island, Nunavut. Under the option agreement, the Company may earn 50% of BHP Billiton's exploration rights by expending \$4 million by 2007, 80% by expending an aggregate \$10 million by 2012 and a 100% interest by delivering a feasibility study to BHP Billiton by December 31, 2014. The option agreement is subject to a floating net smelter return royalty from 1% to 3% based on gold prices, payable to BHP Billiton and a 12% royalty on net profits payable on production from the Nunavut Tunngavik Incorporated leases. If a mineral discovery is made, excluding gold, BHP Billiton may exercise a back-in option on the mineral discovery allowing BHP Billiton to re-acquire up to an aggregate of a 75% interest for a period of up to ten years after the Company has earned a 100% interest in the property.

#### (f) Dewar Lake, Nunavut

The Company earned a 100% interest in BHP Billiton Diamonds Inc. ("BHP Billiton") sixteen Nunavut Exploration Permits covering just under 400,000 hectares on Baffin Island, Nunavut by incurring \$200,000 in expenditures on the property before December 31, 2005. The option agreement is subject to a floating net smelter return royalty from 1% to 3% based on gold prices, payable to BHP Billiton. If a mineral discovery is made, excluding gold, BHP Billiton may exercise a back-in option on the mineral discovery allowing BHP Billiton to re-acquire up to an aggregate of a 75% interest for a period of up to ten years after the Company has earned a 100% interest in the property.

### 6. Mineral Properties (continued)

# (g) Bravo Lake, Nunavut

The Company has an option agreement with Falconbridge Limited ("Falconbridge") to explore for gold, diamonds and other metals on twelve Nunavut Exploration Permits covering over 720,000 acres all on Baffin Island, Nunavut. These Falconbridge permits adjoin the BHP Billiton properties optioned in June. The Company may earn a 100% interest in Falconbridge's exploration rights and interest on Baffin Island by incurring \$8 million of exploration expenditures on the property by 2011.

If a nickel and/or base metal mineral discovery is made, Falconbridge can exercise a back-in option on the mineral discovery allowing Falconbridge to re-acquire up to an aggregate of a 75% interest. If a diamond resource discovery is made, Falconbridge may exercise a back-in option on the mineral discovery allowing Falconbridge to re-acquire up to an aggregate of a 50% interest.

The option agreement is subject to the following royalties payable to Falconbridge:

- on gold, a sliding scale net smelter return royalty from 1% to 3% based on gold prices;
- on nickel production, a 2% net smelter return royalty;
- on diamonds, a 2% gross overriding royalty; and
- on base metal production, a 1.5% net smelter return royalty.

# (h) Big Hill, Newfoundland

In February 2004, the Company completed an option agreement with Black Bart Prospecting Inc. whereby the Company may acquire a 100% interest in the Big Hill property, consisting of four claims in the Baie Verte Electoral District, Newfoundland. Under the terms of the agreement, the Company has paid \$7,000 in cash, issue an aggregate of 200,000 common shares over four years (60,000 shares issued) and expend a total of \$480,000 in exploration expenses on the property over four years. The option is subject to a 2.5% net smelter return royalty with a 1.5% buy back provision.

### (e) Stock-Based Compensation

In the fourth quarter of fiscal 2003, the Company adopted the CICA released amendments to Section 3870, "Stock-based Compensation and Other Stock-based Payments," which requires an expense to be recognized in the financial statements for all forms of employee stock-based compensation, including stock options. Prior to the adoption, the Company disclosed the effects of accounting for stock-based compensation only to directors and employees as compensation expense, using the fair-value based method, as pro-forma information in the share capital note. In the prior year, the pro-forma disclosed stock-based compensation expense for the nine months ended September 30, 2003 was \$129,884.

The fair value of stock options used to calculate compensation expense is estimated using the Black-Scholes Option Pricing Model with the following weighted average assumptions at September 30, 2004:

2.64%
-
114.85%
2.60

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Company's stock options granted/vested during the period.

# 9. Related Party Transactions

In addition to the marketable securities disclosed in Note 3, the Company has the following related party transactions and balances:

- (a) The Company shares certain administrative costs with four other companies related by virtue of common directors. Included in accounts receivable is an aggregate of \$7,473 owed by those companies for shared administrative expenses.
- **(b)** The Company paid or accrued legal fees in the aggregate of \$537 to a personal law corporation owned by an officer of the Company.

#### 10. Commitment

The Company entered into an agreement for the lease of new office premises for a six year period expiring on September 30, 2010. The Company moved into the premises on March 1, 2004. The cost of the entire premises is shared amongst several companies in proportion to the area occupied. Some of the companies are related by virtue of common directors. The Company's proportionate share of minimum annual basic rental payments under this arrangement is approximately \$66,000.

#### 11. Segmented Information

The Company has one operating segment, mineral exploration, and all assets of the Company are located in Canada.

Revenues for the period were derived from a production interest, which was earned in Canada.

#### 13. Income Taxes

Flow-through shares are issued by a company that incurs certain resource expenditures and renounces them for tax purposes allowing the expenditures to flow-through to the subscriber who purchased the shares. Subscribers may in turn claim expenditures as a deduction on their personal or corporate tax returns.

The total amount of funds raised through the issuance of flow-through shares must be spent on qualified mineral exploration. The proceeds of flow-through financing are restricted in use for Canadian Exploration Expenditures ("CEE") under Canadian Income Tax Legislation. The flow-through gross proceeds less the qualified expenditures made to date, represent the funds received from flow-through share issuances which have not been spent as at December 31, 2003 and which are held in trust for such expenditures. As at September 30, 2004, all flow-through funds had been expended.

## 14. Subsequent Events

(a) On October 12<sup>th</sup>, 2004, the Company entered into a Purchase and Royalty Agreement with John Robins, whereby John Robins has agreed to sell to the Company his 50% interest in the ABE and PAL porphyry copper-gold mineral properties located within the Quesnel Trough approximately 100 kilometres south of the Kemess Cu-Au Mine within the Omineca Mining District, British Columbia. With the purchase of Robin's 50% interest, the Company owns 100% interest in the properties.

In consideration of the purchase, the Company will issue 70,000 units of the Company consisting of one common share and one-half of one purchase warrant (issued on October 28<sup>th</sup>). Each full warrant entitles Robins to purchase one common share of the Company at a price of \$0.70 per share, exercisable for a period of one year. In addition, Robins retains a 1% NSR in the properties and will participate in certain cash/share considerations received from the future sale or option of the properties to a third party.

Prior to this agreement, the properties were governed by the "Takla Joint Venture Agreement" dated September 17, 1990 in which the Company (previously Major General Resources Ltd.) owned a 50% interest and the "Hunter Exploration Group" owned a 50% interest. Robins is the successor in title to all parties comprising the Hunter Exploration Group. With the completion of this agreement, the Takla Joint Venture Agreement is terminated.

(b) On November 17<sup>th</sup>, 2004, the Company reported that the Company was arranging a non-brokered private placement to raise up to \$1,325,000. The private placement will comprise up to 1,500,000 flow-through common shares at \$0.35 per flow-through share and up to 2,500,000 non flow-through Units at \$0.32 per Unit, each Unit consisting of one common share and one non-transferable share purchase warrant. Each warrant is exercisable into one common share for two years from the date of completion at a price of \$0.45 per common share during the first year and at \$0.50 per common share during the second year. Finders' fees of 6% of the gross proceeds may be payable in cash or Units on a portion of this placement. The financing is subject to acceptance by the TSX Venture Exchange.
