

# Condensed Consolidated Interim Financial Statements

FOR THE THREE MONTHS ENDED

MARCH 31, 2017

(unaudited)

### **Notice of No Auditor Review**

In accordance with National Instrument 51-102, Part 4, subsection 4.3(3)(a), the Company discloses that the unaudited condensed interim financial statements, and accompanying notes thereto, for the three months ended March 31, 2017 have been prepared by and are the responsibility of the Company's management. They have been reviewed and approved by the Company's Audit Committee and the Board of Directors.

The Company's independent auditor has not performed a review of these condensed interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants.

## COMMANDER RESOURCES LTD. NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

### 1. NATURE OF OPERATIONS

Commander Resources Ltd. ("Commander" or the "Company") was incorporated in Canada and its records and registered office are at Suite 1100 - 1111 Melville Street, Vancouver, British Columbia, V6E 3V6.

In September 2016, the Company completed the acquisition of all the issued and outstanding shares of BRZ Mex Holdings Ltd. ("BRZM") from Bearing Resources Ltd. BRZM and its wholly-owned subsidiary, Minera BRG SA de CV ("Minera BRG"), together own 100% interest of four mineral properties in Canada (October Dome, Mt. Polley and Flume) and Mexico (Pedro) (Note 4(a)).

Commander and its subsidiaries are in the business of acquisition, exploration and development of mineral properties in Canada and Mexico. As the Company is in the exploration stage, no revenue has been generated. The Company has relied on the issuance of share capital and the sales of its marketable securities to continue its operations. Commander has been successful in the past in raising equity financing. However, there is no assurance that such financing will be available with terms acceptable to the Company. As at March 31, 2017, Commander had working capital of \$2,544,809 which provides sufficient liquidity for the operations for the next twelve months.

### 2. SIGNIFICANT ACCOUNTING POLICIES

### Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and comply with IAS 34, *Interim Financial Reporting*.

These condensed consolidated interim financial statements have been prepared on the historical cost basis, except for certain financial instruments classified as fair value through profit or loss, which are stated at fair value; additionally, they have been prepared using the accrual basis of accounting except for cash flow information.

### **Basis of consolidation**

These condensed consolidated interim financial statements include the accounts of the Company and its wholly owned subsidiaries, BRZM and Minera BRG (Note 4(a)). The Company consolidates these subsidiaries on the basis that it controls these subsidiaries. Control is defined as the exposure, or rights, to variable returns from involvement with an investee and the ability to affect those returns through power over the investee. All intercompany transactions and balances have been eliminated on consolidation.

### Critical accounting judgments, estimates and assumptions

The preparation of financial statements in accordance with IFRS requires management the use of estimates, assumptions and judgment that impact the Company's reported financial results. These judgments and estimates are based on historical experiences and expectations of future events. Uncertainty on these judgments could result in material reassessments of the carrying amounts in the Company's financial position.

The significant judgments and estimates that affect these financial statements are as follows:

### Exploration and evaluation assets ("E&E assets")

The Company capitalizes costs related to the acquisition and exploration of the E&E assets. From time to time the Company may acquire or dispose an E&E asset pursuant to the terms of an option agreement. As the options

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

are exercisable entirely at the discretion of the optionee, the amounts payable or receivable are not recorded. Option payments are recorded as acquisition costs when the payments are made.

If economically recoverable reserves are developed, capitalized costs of the related property will be reclassified as mining assets and will be amortized using the unit-of-production method. When a property is deemed to no longer have commercially viable prospects to the Company, its capitalized expenditures in excess of estimated recoveries are written off to profit or loss.

When the Company receives proceeds in the form of cash and/or common shares from an option of interest or a partial sale in a property, the payments are credited against the carrying value of the property and the excess amount of the proceeds over the carrying value is recorded in profit and loss in the period. When all of the interest in a property is sold, the accumulated property costs are written off with any gain or loss recorded in profit and loss in the period the transaction occurs.

### Impairment of long-lived assets

The carrying amounts of the Company's long-lived assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognized if the carrying amount of an asset or its related cash-generating unit ("CGU") exceeds its estimated recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less cost to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit. For the purpose of impairment testing, assets that cannot be individually tested are grouped together into the smallest group of assets that generates cash inflows or CGUs. The Company's corporate assets do not generate separate cash inflows and may be utilized by more than one CGU. Corporate assets are allocated to CGUs on a reasonable and consistent basis and tested for impairment as part of the testing of the CGU to which the corporate asset is allocated.

Impairment losses are recognized in profit or loss. Impairment losses recognized in respect of CGUs are allocated to reduce the carrying amounts of the assets in the CGU on a pro rata basis.

### New, amended and future accounting pronouncements

Standards and amendments issued but not yet effective for the three months ended March 31, 2017, are as follows:

IFRS 9, Financial Instruments addresses classification, measurement and recognition of financial assets and financial liabilities. In July 2014, IASB completed the final version of the Standard which replaces IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 provides a revised model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a reformed approach to hedge accounting. The effective date for this standard is for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company does not expect any impact from this amendment.

IFRS 16, Leases, addresses accounting for leases and lease obligations and replaces the leasing guidance in IAS 17, Leases. The standard requires lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. The standard is effective for annual periods beginning on or after January 1, 2019 with early adoption permitted. The Company does not expect any impact from this standard.

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

### FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

### 3. MARKETABLE SECURITIES

	March 31,	December 31,
	2017	2016
Common shares of public companies:		
Fair value, beginning of period	\$ 4,162,160	\$ 526,255
Additions (Note 4(a) and 4(d))	35,000	2,640,000
Reclassification from investment in associated company (Note 3(b))	-	1,322,160
Proceeds from sales of marketable securities, net of commission	-	(1,312,295)
Gain on sale of marketable securities	-	800,886
Unrealized (loss) gain on marketable securities	(1,573,880)	185,154
Fair value, end of period	\$ 2,623,280	\$ 4,162,160
Commont	ć 1742.200	ć 1.700.000
Current	\$ 1,743,280	\$ 1,769,660
Non-current (Note 3(a))	880,000	2,392,500
	\$ 2,623,280	\$ 4,162,160

### a) Aston Bay Holdings Ltd. ("Aston")

On February 18, 2016, Aston issued 11,000,000 common shares to Commander with a fair value of \$2,640,000 for the acquisition of the Storm Property (Note 4(d)). The 11,000,000 shares are held in a four-year escrow and will be released in four equal tranches of 2,750,000 shares on each anniversary date starting February 18, 2017 to 2020.

At March 31, 2017, Commander held 18.48% (December 31, 2016 - 18.48%) of Aston's total outstanding common shares. The Company has assessed its holdings in Aston and determined that it does not hold significant influence in this investment.

### b) Maritime Resources Ltd. ("Maritime")

In April 2016, the Company reevaluated its investment in associated company, Maritime, and concluded that significant influence no longer existed due to an evaluation of the consideration factors: Commander has (i) no representation on Maritime's board of directors, (ii) no longer any involvement in business decision making processes, (iii) no longer an interchange of management personnel, and (iv) no provision of essential technical information. As a result, as of April 1, 2016, Maritime ceased to be an associated company and the investment in Maritime had been designated as an available-for-sale securities measured at fair value with changes in fair value recognized in accumulated other comprehensive income.

Prior to the cessation date, the investment in Maritime was being accounted for using the equity method and included a pro-rata share of Maritime's change in in net assets for each reporting period. Commanders' investment in Maritime as at December 31 and March 31, 2016 was as follows:

	Number of shares					
Balance, December 31, 2015	9,444,000	\$	1,663,952			
Share of loss in associated company for January to March 201	6 -		(31,448)			
Balance, March 31, 2016	9,444,000	\$	1,632,504			
Loss on transfer of investment in associated company (a)	-		(310,344)			
Reclassified to marketable securities (Note 3(b))	(9,444,000)		(1,322,160)			
Balance, December 31, 2016	-	\$	-			

On April 1, 2016, the fair value of the Maritime shares was \$1,322,160, resulting in a realized loss on investment in associated company of \$310,344 upon transfer to marketable in securities.

At March 31, 2017, Commander owned 6,944,000 Maritime shares representing 11.78% (December 31, 2016 – 11.78%) of Maritime's total outstanding common shares.

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

### FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

### Option to Purchase Shares Agreement

On April 6, 2016, an existing Option Agreement between the Company and Maritime was amended regarding the time frames and purchase prices of 8,000,000 Maritime shares that Maritime or its nominees had the option to purchase from the Company.

The details of the amended agreement are as follows:

Optioned Shares (Tranches)	Time Frame and Conditions
<ul> <li>Up to 2,000,000 shares; plus</li> </ul>	- On or before February 28, 2017.
- 1,500,000 shares carried forward	<ul> <li>At a price equal to the greater of \$0.25 per share.</li> </ul>
	- Tranche was not completed.
<ul> <li>Up to 2,000,000 shares; plus</li> </ul>	- March 1, 2017 to August 31, 2017.
<ul> <li>Any shares carried forward from</li> </ul>	- At a price equal to the greater of (i) \$0.30 per share, and (ii) 85%
the previous tranche	of the volume weighted average price of Maritime's shares for the
	10 trading days immediately preceding the date exercise.

### 4. EXPLORATION AND EVALUATION ASSETS

Commander's exploration and evaluation assets are primarily located in Canada and Mexico. As at March 31, 2017, their cumulative expenditures were as follows:

				BC		_	Yukon		Labrador	 Nunavut	 /lexico			
Note	(	October Dome 4(a)	М	t. Polley 4(a)	Rebel 4(b)		Flume 4(a)	Sou	uth Voisey's Bay 4(c)	Storm 4(d)	Pedro 4(a)	ı	Other Properties 4(e)	Total

### a. Bearing Asset Acquisition

On September 23, 2016, the Company acquired 100% of the issued and outstanding share capital of Bearing Resources Ltd.'s wholly owned subsidiaries, BRZ Mex Holdings Ltd. ("BRZM") and Minera BRG SA de CV ("Minera BRG") (the "Transaction"). The asset acquisition was a related party transaction with the Chief Executive Officer being a common executive/director for both Bearing and Commander (see Note 6).

The transaction was treated as an asset acquisition. Consideration for the transaction consisted of the following:

Issuance of 12,000,000 common shares of the Company	\$660,000
Cash payment	18,900
	\$678,900

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

### FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

BRZM and Minera BRG own a 100% interest in four exploration stage properties in Canada and Mexico: October Dome, Mt. Polley, Flume and Pedro. As there were no other significant assets or liabilities acquired in the acquisition, the consideration was allocated to the exploration and evaluation assets acquired as follows:

October Dome	\$ 574,122
Mt. Polley	36,429
Flume	68,348
Pedro	1
	\$ 678,900

As part of the acquisition, the Company also acquired royalty interests as follows:

- Jay East Royalty with Precipitate Gold 2% NSR with a right to buy down to 1% for \$1,000,000
- VF Royalty with Aben Resources 2% NSR with a right to buy down to 1% for \$1,500,000 and \$15,000 annual advance royalty payments beginning March 1,2018
- Boundary Zone Royalty with Imperial Metals 90% interest in a royalty (Glengarry 10%) of \$2.50 per tonne milled for first 400,000 tonnes thereafter \$1.25/tonne milled. This second rate can be bought down/reduced to \$0.62 per tonne milled for \$1,000,000

### Flume, Yukon

On March 6, 2017, the Company entered into an option agreement with K2 Gold Corporation ("K2") granting K2 to acquire a 100% interest in the Flume property in Yukon.

To earn an initial 60% interest, K2 must spend \$2,000,000 in exploration with \$200,000 committed in year one and make total cash payments of \$400,000 and issue 1,000,000 shares of K2 to Commander as per the following schedule:

			Expenditure
Details of Commitments	Cash	Common Shares	Commitments
Upon signing of agreement	\$25,000	100,000	
	(recevied)	(received with a fair	
		value of \$35,000)	
Year one	-	-	\$200,000
Year one anniversary	\$35,000	100,000	-
Year two anniversary	\$50,000	150,000	-
Year three anniversary	\$75,000	150,000	-
Year four anniversary	\$215,000	500,000	\$1,800,000
Total	\$400,000	1,000,000	\$2,000,000

Upon fulfilling the initial option conditions, K2 will have the right to earn the remaining 40% interest by meeting additional conditions as follows:

			Expenditure
Details of Commitments	Cash	Common shares	Commitments
over 3 years	\$250,000	2,000,000	\$3,000,000

If K2 has acquired a 100% interest in the Flume property and decided to commence production, it will pay Commander a balloon payment of either \$10,000,000 in cash or \$5,000,000 cash and \$5,000,000 value in shares of K2

The transaction has received the approval of the TSX Venture Exchange on March 15, 2017.

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

### b. Rebel, British Columbia

In November 2016, the Company acquired the Rebel zinc and lead property by way of staking. A field program is planned for 2017.

### c. South Voisey's Bay, Labrador

In September 2014, the Company signed an Option Agreement ("Agreement") with Fjordland Exploration Inc., ("Fjordland") granting it an option to earn up to a 70% interest in the nickel project (which was later amended to 75%) for certain exploration expenditure commitments, and share issuance commitments of Fjordland shares. In August 2015, the option agreement was terminated. In December 2015, the Company and Fjordland agreed that Fjordland had earned a 15% interest in the project. On March 23, 2016, Commander transferred 15% interest of the project to Fjordland.

The Company received from Fjordland a total of \$350,000 (2015 - \$78,000; 2014 - \$272,000), of which \$337,784 had been expended on the property. As the project operator, the Company earned management fees of \$575 during the three months ended March 31, 2017 (2016 - \$nil) which were included in interest and miscellaneous income. At March 31, 2017, the remaining advance on the project account was \$12,216 (December 31, 2016 - \$18,630).

### d. Storm Property

On February 18, 2016, the Company completed a sale transaction with Aston and received 11,000,000 common shares with a fair value of \$2,640,000. As a result, a gain of \$1,951,462 was recognized on the sale transaction. The Aston shares are held in a four-year escrow (see Note 3(a)).

Commander retains a 0.875% Gross Overriding Royalty ("GOR") after the property is brought into production. Aston has the right to buy down the GOR from 0.875% to 0.4% for \$4,000,000.

### e. Other Properties

The Company holds interests in other properties in Canada. The carrying values of these 100% wholly owned properties are as follows:

			March 31,	December 31,
Province	Property	Resource	2017	2016
New Brunswick	Nepisiguit / Stewart	copper-zinc	\$ -	\$ -
Newfoundland	Hermitage	uranium	-	-
Ontario	Sabin	copper-zinc	1	1
Nunavut	Baffin	gold	50,001	50,001
Yukon	Olympic / Rob	copper-gold	1	1
British Columbia	Omineca	copper-gold	1	1
			\$ 50,004	\$ 50,004

During the year ended December 31, 2016, the Company wrote-off exploration and evaluation assets in the amount of \$1,142,699. This is comprised of \$1,133,626 of Nepisiguit/Stewart costs incurred to December 31, 2015, plus aggregate costs incurred during the year ended December 31, 2016, of \$9,073, on Hermitage, Glenmorangie, and Omineca.

### **Exploration and Evaluation Costs**

During the three months ended March 31, 2017, maps and data were compiled, licenses and land rents were made on Sabin, Baffin and Omineca properties in the amount of \$17,192 including Pedro's claims maintenance payment.

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

### Sabin, Ontario

Commander's ownership interests on the property vary from 58.5% to 100%. In September 2016, a site visit was carried out and a desktop compilation of all pre-existing and historical exploration data has been completed.

On March 6, 2017, Commander entered into a conditional agreement with Roughrider Exploration Inc. ("Roughrider") allowing Roughrider to acquire up to a 100% interest in the Sabin property over a nine-year period by paying \$1,100,000 in cash payments, issuing 4,400,000 shares of Roughrider and completing \$4,500,000 in exploration expenditures. The agreement is subject to a completion period allowing for due diligence and completion of a definitive agreement by May 31, 2017.

Details of the terms of the conditional agreement are as follows:

Details of Commitments of the	Optionee	Cash	Common Shares	Expenditure Commitments
Upon signing of a definitive	on or before			
agreement	May 31, 2017	\$20,000	100,000	-
To earn a 51% interest	by the 1st anniversay	-	-	\$200,000
10 earn a 31% interest	by the 4th anniversay	\$380,000	1,300,000	\$1,300,000
To earn a 70% interest	by the 6th anniversay	\$200,000	1,000,000	\$1,500,000
To earn a 100% interest	by the 9th anniversay	\$500,000	2,000,000	\$1,500,000
Total		\$1,100,000	4,400,000	\$4,500,000

### **Baffin, Nunavut**

In December 2016, an exploration agreement with Nunavut Tungasuvvingat Inc. ("NTI") was reached. The exploration agreement allows the Company the right to explore specified exploration areas for a term of one year, which is renewable for successive one year terms.

The Baffin project has been inactive since 2013. The exploration camp over this period was subject to damage from weather and the Company received government notice for site cleanup. In November 2016, the Company filed a Remedial Action Plan with the government authorities. The cleanup costs were estimated at \$50,000 and have been accrued and capitalized to exploration and evaluation assets.

Subsequent to the three months ended March 31, 2017, on May 8, 2017, Commander entered into an option agreement with Kivalliq Energy Corporation ("Kivalliq") allowing Kivalliq to acquire a 100% interest in the Baffin property which includes six mineral claims and the signed 2017 Mineral Exploration Agreement ("MEA") with NTI on two blocks within Inuit Owned Land parcel BI-35 ("IOL BI-35").

Terms of the option agreement are:

Details of Commitments		Common	Other
of the Optionee	Cash	Shares	Commitments
Upon execution of agreement	\$10,000	-	Fulfill Commander's Year 1 obligations
	(received)		to NTI under the MEA on IOL BI-35
Within a year of execution		500,000	
of agreement	-	(250,000	-
		received)	
At a Bankable Feasibility Study	-	500,000	-
Upon commencement of	¢6 000 000		
commercial production	\$6,000,000	-	-
Total	\$6,010,000	1,000,000	-

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

Commander will retain a 0.25% to 0.5% NSR royalty on the Baffin optioned lands. In addition, as part of a data purchase agreement, Kivalliq will grant Commander a 0.25% NSR on Kivalliq's Baffin mineral tenures contiguous to Commander's Baffin optioned lands. Terms of the option agreement may be adjusted up until the date of the first royalty payment to reflect the possible impact of any past commercial arrangement or interests.

### Nepisiguit/Stewart, New Brunswick

The Company owns 100% of the properties subject to a 2.75% NSR retained by the Optionor. The NSR is subject to a buy-down to 1% NSR for \$1,500,000.

### Hermitage, Newfoundland

The Company owns 100% of the Hermitage property subject to a 2% NSR for the original property owners. 50% of the NSR may be purchased for \$1,000,000.

### Olympic and Rob, Yukon

The Company owns 100% interest in the Olympic and Rob properties subject to a 1% NSR registered to Blackstone Ventures Inc., on the Rob property. The NSR may be reduced to 0.5% at any time for \$1,000,000. The carrying value was historically written off as the project lies within a proposed environmentally protected area. The underlying mineral claims remain in good standing until January 1, 2018.

### Omineca, BC

The Company owns 100% of the property located within the Quesnel Trough of BC. The vendor retains a 1% NSR and will participate in certain cash or share considerations received from the future sale or option of the properties to a third party.

### Tam, BC

The Company is entitled to a 1.5% NSR on the property. Teck Resources Ltd. and its partner, Lorraine Copper Corp., now own 100% of the property subject to a 3% NSR, which is subject to a buy-down to 1% for \$2,000,000. An annual advance royalty payment of \$25,000 is payable to the Company beginning December 31, 2012 and capped at \$250,000. As of March 31, 2017, the Company has received a total of \$125,000 in advance royalty payments which are recorded as royalty income.

### 5. SHARE CAPITAL AND RESERVES

Authorized - unlimited number of common shares without par value

**Issued** – the continuity of issued and outstanding shares is as follows:

	Shares	Amount
Balance, December 31, 2015	103,302,521	\$39,040,632
Issued for Bearing asset acquisition (Note 4(a))	12,000,000	660,000
Balance, December 31, 2016 and March 31, 2017	115,302,521	\$39,700,632

Number of

### Stock options

Under the Company's stock option plan, it may grant stock options for the purchase of up to 18,000,000 common shares. Options granted to directors, employees and consultants have a five-year term and the exercise prices and the vesting periods are determined by the Board of Directors at the time of the option grant.

The Company's outstanding stock options as of March 31, 2017 are as follows:

	Number of	Weighted average
	options	exercise price
Balance, December 31, 2015	7,305,000	\$0.09
Granted	5,300,000	0.05
Expired / cancelled	(1,430,000)	(0.19)
Balance, December 31, 2016 and March 31, 2017	11,175,000	\$0.06

At March 31, 2017, the Company's outstanding and exercisable stock options are as follows:

	Options		Weighted average
	outstanding and	Exercise	remaining contractual
Expiry date	exercisable	price	life (in year)
June 12, 2017	1,005,000	\$ 0.10	0.20
November 14, 2017	400,000	\$ 0.10	0.62
February 7, 2019	1,870,000	\$ 0.05	1.86
July 17, 2020	2,600,000	\$ 0.05	3.29
March 16, 2021	4,000,000	\$ 0.05	3.96
June 9, 2021	1,300,000	\$ 0.05	4.19
	11,175,000		3.02

The fair values of stock options granted during the three months ended March 31, 2016 were calculated using the Black-Scholes option pricing model with the following assumptions:

	For the three m	For the three months ended			
	March	31,			
	2017	2016			
Risk-free interest rate	-	0.73%			
Expected annual volatility	-	107.75%			
Expected life (in year)	-	5			
Expected dividend yield	-	0.00%			
Forfeiture rate	-	0.00%			
Weighted average fair value of option	-	\$0.012			

Expected volatility was determined based on the historical movements in the closing price of the Company's common shares for a length of time equal to the expected life of each option.

During the year ended March 31, 2017 and 2016, the Company recognized share-based payments expense of \$489 and \$11,787, respectively.

### Warrants

At March 31, 2017, 2,000,000 (December 31, 2016 - 2,000,000) warrants were outstanding with an exercise price of \$0.05 and an expiry date on October 20, 2017. The warrants reserve balance of \$40,000 represents the residual value of these warrants recognized on the date of issuance. There was no warrant activity during the three months ended March 31, 2017 and 2016.

### NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

### 6. RELATED PARTY TRANSACTIONS

### **Mineral Asset Acquisition**

On September 23, 2016, the Company acquired all of the issued and outstanding shares of Bearing Resources Ltd.'s wholly owned subsidiaries, BRZ Mex Holdings Ltd. ("BRZM") and Minera BRG SA de CV ("Minera BRG"). The asset acquisition was a related party transaction with the Chief Executive Officer being a common executive/director for both Bearing and Commander (Note 4(a)).

### **Services**

The Company's related parties consist of companies controlled by certain of the Company's directors. The fees and expenses with those companies for the three months ended March 31, 2017 and 2016 are as follows:

	For the three months ended					
	March 31,					
	2017					
Consulting (former director)	\$	-	\$	11,000		
Office rent and charges		9,131		9,381		
	\$	9,131	\$	20,381		

At March 31, 2017, included in accounts payable and accrued liabilities was an amount due to a related party of \$618 (2016 – \$nil) for office administration to a company related by a director in common.

### **Compensation of Key Management**

Key management includes the Company's directors, the President and Chief Executive Officer, VP Exploration, VP Corporate Development, Chief Financial Officer and Corporate Secretary. Their remuneration, including share-based payments is as follows:

		For the three months end			
	Nature of	March 31,			,
	Compensation		2017		2016
President and Chief Executive Officer	Salary and benefits	\$	26,613	\$	=
Vice President, Corporate Development	Consulting		7,500		-
Vice President, Exploration (1)	Consulting and project expenses		19,838		-
Chief Financial Officer	Accounting and audit		8,000		7,500
Corporate Secetary	Consulting		9,000		4,500
			70,951		12,000
Share -based payments	Stock option		-		11,787
		\$	70,951	\$	23,787

<sup>(1) \$12,338</sup> of the consulting fees were related to geological consulting in exploration and evaluation costs and the \$7,500 were for the fees as VP Exploration.

### 7. COMMITMENT

The Company has a commitment of \$13,875 for its Vancouver office lease which expires on August 31, 2017. Commander is obligated to make monthly rent payments of \$2,775. The Company has the option to terminate the lease with two months' notice.

## COMMANDER RESOURCES LTD. NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

### 8. SUPPLEMENTAL CASH FLOW INFORMATION

	For the three months end March 31,			is ended
		2017		2016
Marketable securities received for exploration and evaluation assets (Note 4(a) and 4(d))	(d)) <b>\$ 35,000</b> \$2,640		540,000	
Exploration and evaluation assets in accounts payable and accrued liabilities		50,000		36,350
Other cash flow information:				
Interest received	\$	1,718	\$	-
Income tax paid		-		-

### 9. SEGMENT INFORMATION

The Company operates in one single reportable segment, being the acquisition and exploration of resource properties. The Company's non-current assets are located in Canada and Mexico. The carrying value of the Company's non-current assets in Mexico total \$1. The carrying value of the Company's non-current assets in Canada total \$3,791,748.

### 10. CAPITAL MANAGEMENT

The Company defines its capital as all components of equity. The Company manages its capital structure by maintaining adequate funds to support the acquisition and exploration of minerals assets. The Board of Directors does not establish a quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. There were no changes in the Company's approach to capital management for the three months ended March 31, 2017. The Company is not subject to externally imposed capital requirements.

### 11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

### Fair value

The Company has classified its financial instruments as follows:

- Cash and cash equivalents as FVTPL
- Marketable securities as AFS
- Amounts receivable as loans and receivables
- Accounts payable and accrued liabilities and advance from optionee as other financial liabilities

The carrying values of amounts receivable, accounts payable and accrued liabilities, and advance from optionee approximate their fair values due to the short-term to maturity of these financial instruments. The Company classifies its financial instruments measured at fair value at one of three levels according to the relative reliability of the inputs used to estimate the fair value. The Company's cash and cash equivalents, and marketable securities are classified as a level 1 financial asset. The fair value hierarchy is as follows:

- Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 inputs for the asset or liability that are not based on observable market data (unobservable inputs).

### Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities to ensure it will have sufficient liquidity to meet obligations. At March 31, 2017, the

## COMMANDER RESOURCES LTD. NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2017

(EXPRESSED IN CANADIAN DOLLARS)

Company had cash and cash equivalents of \$871,369 and working capital of \$2,544,809. The Company has sufficient funds to continue operations for the next twelve months.

### **Credit risk**

Credit risk is the risk that if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk is equal to the carrying value of cash and cash equivalents and amounts receivable. Amounts receivable primarily comprises GST receivable. To minimize the credit risk, Commander places cash and cash equivalents at high credit rating financial institution.

### Price risk and foreign currency risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is exposed to price risk with respect to its marketable securities. A 10% change in the share prices would affect the investments and comprehensive loss by approximately \$262,328. In September 2016, the Company acquired exploration and evaluation assets located in Mexico (Note 4(a)) and may be subject to future foreign currency risk. The risk as at March 31, 2017, was insignificant.

### 12. SUBSEQUENT EVENT

On May 8, 2017, Commander entered into an option agreement with Kivalliq Energy Corporation ("Kivalliq") allowing Kivalliq to acquire a 100% interest in the Baffin property in Nunavut which includes six mineral claims and the signed 2017 Mineral Exploration Agreement ("MEA") with Nunavut Tungasuvvingat Inc. ("NTI") on two blocks within Inuit Owned Land parcel BI-35 ("IOL BI-35"). For the terms of the option agreement, see Note 4(e) under "Baffin, Nunavut". The transaction has received the approval of the TSX Venture Exchange.

### **Management's Discussion and Analysis**

For the Three months ended March 31, 2017

### FORWARD-LOOKING STATEMENTS

This Management Discussion and Analysis ("MD&A") contains forward-looking information within the meaning of National Instrument 51-102 *Continuous Disclosure Obligations* of the Canadian Securities Administrators that involve risks and uncertainties.

Such forward-looking statements include statements of the Company's future plans, estimation of mineral resources, government regulations of the mining industry, requirements for operational funding, environmental risks, and anticipated timing of completion of property dispositions or acquisitions. These known or unknown risks and uncertainties could cause actual performance of the Company to differ materially from results implied by such forward-looking information. These uncertainties include future commodity pricing, capital market access, global economy and politics, government regulations, environmental restrictions, exploration results, permitting time lines, as well as those factors discussed in the section entitled "Risks and Uncertainties" in this MD&A.

This MD&A has been prepared based on available information up to the date of this report, May 24, 2017 (the "Report Date") and should be read in conjunction with the Company's condensed consolidated interim financial statements for the three months ended March 31, 2017. The financial information disclosed in this MD&A have been prepared in accordance with International Financial Reporting Standards ("IFRS") and comply with International Accounting Standard, IAS 34, *Interim Financial Reporting*. Additional information is available on SEDAR at <a href="https://www.sedar.com">www.sedar.com</a> and the Company's website <a href="https://www.commandersources.com">www.commandersources.com</a>.

### **DESCRIPTION OF BUSINESS**

Commander Resources Ltd. ("Commander" or "the Company") and its two wholly-owned subsidiaries, BRZ Mex Holdings Ltd. ("BRZM") and Minera BRG SA de CV ("Minera BRG") are engaged in the acquisition and exploration of resource properties, primarily in Canada and Mexico. Commander is a reporting issuer in British Columbia and Alberta, and listed on the TSX Venture Exchange under the symbol "CMD".

### Acquisition of Mineral Assets from Bearing Resources Ltd.

On September 23, 2016, Commander completed the Asset Purchase Agreement (the "Agreement") with Bearing Resources Ltd. ("Bearing") to acquire 100% of the issued and outstanding shares of BRZM which included BRZM's wholly-owned subsidiary, Minera BRG. BRZM and Minera BRG together hold a 100% interest of four exploration stage properties in Canada and Mexico: October Dome (BC), Mt. Polley (BC), Flume (Yukon) and Pedro (Durango, Mexico). In addition, three royalty interests were also acquired. One of these royalties includes a production-defined royalty on a portion of the Boundary Zone deposit at the Mt. Polley Mine in BC owned by Imperial Metals Corporation.

As consideration, Commander issued to Bearing 12,000,000 shares valued at \$660,000, \$15,000 in cash, plus \$3,900 (the amount equal to cash holdings of BRZM and Minera BRG, less any outstanding accounts payable due by these entities). Commander has treated this as an asset acquisition with 100% of the consideration (\$678,900) being attributed to the four mineral properties on a pro rata basis based on their historical carrying values. The Commander shares issued to Bearing are subject to a 30-day right of first offer in favour of Commander and Bearing will vote the shares held as directed by Commander's management.

### **HIGHLIGHTS OF OPERATIONS**

### Option Agreement with K2 Gold Corporation on the Flume Property, Yukon

On March 6, 2017, Commander entered into an option agreement with K2 Gold Corporation ("K2") granting K2 the option to acquire a 100% interest in the Flume property in 2 stages:

- 1) To earn the initial 60% interest over four years, K2 must spend \$2,000,000 in exploration (\$200,000 firm commitment in year one), make cash payments totaling \$400,000 and issue 1,000,000 shares to Commander; and
- 2) To earn the remaining 40% interest, K2 must spend additional \$3,000,000 in exploration, make additional cash payments of \$250,000 and issue further 2,000,000 shares to Commander.

For the schedule of the above staged cash payments, share issuance and expenditures, see the Flume Property under "Exploration and Evaluation Assets".

May 24, 2017

After acquiring all the interest in the Flume property, if K2 decided to commence commercial production, it will made a balloon payment of either \$10,000,000 in cash or \$5,000,0000 in cash and \$5,000,000 value in shares of K2.

The transaction has received the approved of the TSX Venture Exchange on March 15, 2017.

### Option Agreement with Roughrider Exploration Inc. on the Sabin Property, Ontario

On March 6, 2017, Commander entered into a conditional agreement with Roughrider Exploration Inc. ("Roughrider") allowing Roughrider to acquire up to a 100% interest in the Sabin property over a nine-year period by paying \$1,100,000 in cash payments, issuing 4,400,000 shares of Roughrider and completing \$4,500,000 in exploration expenditures.

For the schedule of the staged cash payments, share issuances and expenditure commitments, refer to the Sabin property under "Exploration and Evaluation Assets".

Roughrider has up to May 31, 2017 to execute the agreement.

### Option Agreement with Kivalliq Energy Corporation on the Baffin Property, Nunavut

On May 8, 2017, Commander entered into an option agreement with Kivalliq Energy Corporation ("Kivalliq") allowing Kivalliq to acquire a 100% interest in the Baffin property which includes six mineral claims and the signed 2017 Mineral Exploration Agreement ("MEA") with Nunavut Tungasuvvingat Inc. ("NTI") on two blocks within Inuit Owned Land parcel BI-35 ("IOL BI-35").

For the term details, refer to the Baffin property under "Exploration and Evaluation Assets".

### **EXPLORATION AND EVALUATION ASSETS**

Bernard Kahlert, P.Eng., the Company's Qualified Person under National Instrument 43-101, has reviewed and approved the technical information presented in this MD&A.

### CANADA

### October Dome Property, BC

The 100% owned October Dome gold property, is located in the "Quesnel Trough" in central BC, near the town of Likely. The October Dome property is located 10km north of Imperial Metals Corporation's ("Imperial") Mt. Polley porphyry copper gold mine property and 7 km to the southeast of Barkerville Gold Mines Ltd.'s QR skarn gold mine property. The October Dome claims are subject to net smelter return ("NSR") royalties of between 1.5% and 2%. The October Dome target is defined by a grid area of some 4.0 km by 1.1 km that has been surveyed by magnetic and Induced Polarization ("IP") surveys and soil geochemistry. In 2013 Bearing completed a 1,086-metre (six holes) diamond drill program targeting the northern end of a four-kilometre-long gold and arsenic soil anomaly that is coincident with an induced polarization (IP) chargeability anomaly. Holes OD-5 through OD-7 encountered diorite and monzonite intrusions within hornfelsed sediments and propylitized basalts. Hole OD-6 encountered a 15-metre core length of massive magnetite skarn with semi-massive pyrite layers accompanied by chalcopyrite, epidote and garnet at the sediment/basalt contact. A nine-metre section of this skarn assayed 0.7 gram per tonne gold, including a three-metre length that returned 1.3 g/t Au. For full details of the drill program reference should be made to Bearing Resources news release dated December 3, 2013.

### Mt.Polley Property, BC

The Mt. Polley properties are located adjacent to Imperial's Mt. Polley open-pit copper gold mine, which is approximately 100 km northeast of Williams Lake, BC. The claims are subject to a NSR of up to 2%. The Mt. Polley properties had previously included an additional area (~37 hectares) adjacent to Imperial's Boundary Zone that was sold to Imperial and over which the Company retains a royalty. The royalty is \$2.50 per tonne for the first 400,000 tonnes of material milled and the \$1.25 per tonne for all tonnes milled in excess of 400,000 tonnes. The royalty per tonne in excess of 400,000 tonnes milled can be reduced to \$0.62 per tonne by Imperial making a payment of \$1 million. The Company is entitled to 90% of the royalty payments. Three royalty payments were received by Bearing in Q1 2012. Commander recently completed a program of re-sampling of historical core. Results are pending.

### Rebel Property, BC

In November 2016, the Company acquired the Rebel zinc and lead property by way of staking. The 1,620-hectare Rebel property occurs on the southern end of the Kechika trough, a geological feature that is host to numerous sedimentary exhalative (sedex) zinc-lead-silver-boron deposits and showings and covers the Rebel prospect. Public records indicate that it was first identified in 1979 when prospectors working for Esperanza Explorations discovered a 40-metre horizon of interbedded massive pyrite beds and black shale. Esso Resources optioned the property and over the next several years conducted geological mapping, stream, soil and rock sampling as well as various geophysical surveys concluding with five short diamond drill holes in 1982, none of which tested the pyrite horizon. Most of these data are unavailable. In 1994, Teck Resources completed geological mapping and extended the Esso soil grid to the west.

Compilation of available public domain data shows a 1.7-kilometre lead-in-soil (40-part-per-million cut-off) anomaly that is partially coincident with the massive pyrite and ferricrete outcrops. Reported assays from the massive pyrite zone contain low to anomalous Pb, Zn and Ba with the best sample being 0.5 per cent Zn, 0.2 per cent Pb and 24.6 grams per tonne Ag.

A field program is planned for 2017.

### Flume Property, Yukon

Most recent work on the Flume property was by Ryan Gold Corp ("RGC") who In May 2013 terminated its option on the property after undertaking over \$2,500,000 in expenditures (including a nine diamond drill hole (2,307m) program in November 2012). The results included the highlight hole F12-006 which included 2m of 5.76 g/t Au. For full details of the drill results, reference should be made to RGC's news release dated November 6, 2012. In December 2014, Bearing excised its underlying option to acquire the Flume property from Freeport Exploration Canada limited wherein the final payment was waived subject to an additional 0.5% NSR on the property. The Flume property is now subject to a 2.5% NSR.

On March 6, 2017, Commander entered into an option agreement with K2 Gold Corporation ("K2") allowing K2 to acquire a 100% interest in the Flume property as follows:

To earn an initial 60% interest, K2 must spend \$2,000,000 in exploration (\$200,000 firm commitment in year one), make cash payments totaling \$400,000, and issue 1,000,000 shares to Commander in accordance with the following schedule:

- Upon signing \$25,000 (received) and 100,000 shares (received with a fair value of \$35,000)
- Year one anniversary \$35,000 and 100,000 shares
- Year two anniversary \$50,000 and 150,000 shares
- Year three anniversary \$75,000 and 150,000 shares
- Year four anniversary- \$215,000 and 500,000 shares

Upon fulfillment of the initial option conditions, K2 will have the right to earn the remaining 40% interest in the property over three years with the following conditions by:

- spending an additional \$3,000,000 in exploration
- making additional cash payments of \$250,000
- issuing a further 2,000,000 shares to Commander

If K2 has acquired a 100% interest and announced a decision to commence production, it will pay Commander a balloon payment of either (i) \$10,000,000 in cash or (ii) \$5,000,000 in cash and \$5,000,000 value in shares of K2. Commander retains a 1% net smelter royalty on the property. On March 15, 2017, the TSX Venture Exchange has approved the transaction.

### Sabin Property, Ontario

The property is located at the north margin of the mineral-rich Sturgeon Lake Greenstone belt of Archean metavolcanic and metasedimentary rocks in the Wabigoon Sub-Province of the Superior Province, 400 km northwest of Thunder Bay, Ontario. The property is known to host a VMS base-precious metal deposit called the Marchington Zone.

The Company recently completed a desktop compilation of all pre-existing and historical exploration data. A site visit was carried out in September 2016 that comprised limited geological mapping and GPS surveying of historical drill sites.

On March 6, 2017, Commander entered into a conditional agreement with Roughrider Exploration Inc. ("Roughrider") allowing Roughrider to acquire up to a 100% interest in the Sabin property over a nine-year period by paying a total of \$1,100,000 in cash payments, issuing a total of 4,400,000 shares of Roughrider and completing \$4,500,000 in exploration expenditures. In March, 2017, the property was expanded by staking to now include an additional 2,983 hectares. The agreement is subject to a completion period allowing for due diligence and completion of a definitive agreement by May 31, 2017.

The details of the terms of the conditional agreement are as follows:

Upon signing of a definitive agreement on or before May 31, 2017:

- cash payment of \$20,000
- issuance of 100,000 shares

To earn a 51% interest by the 4th anniversary:

- additional cash payments of \$380,000
- additional issuance of 1,300,000 shares
- \$1,500,000 in exploration (\$200,000 before the first anniversary)

To earn a 70% interest by the 6th anniversary:

- additional cash payments of \$200,000
- additional issuance of 1,000,000 shares
- additional \$1,500,000 in exploration

To earn a 100% interest by the 9th anniversary:

- additional cash payments of \$500,000
- additional issuance of 2,000,000 shares
- additional \$1,500,000 in exploration

Commander retains a 1% net smelter royalty ("NSR") on claims where the aggregate NSR held by all other parties is not greater than 2%.

### **Baffin Island Project, Nunavut**

This property has yielded discovery of numerous orogenic gold occurrences over 10 years in several geological environments permissive to hosting major gold deposits. Approximately 18,000 m of drilling has been carried out over three prospective areas, known as Malrok, Ridge Lake and Kanosak, with appreciable gold intersections.

Non-core claims were not renewed in 2015. In 2016, a new exploration agreement with Nunavut Tungasuvvingat Inc. ("NTI") was applied for and agreement was reached and signed in December 2016 (effective date of January 1, 2017). The new exploration agreement covers the previously explored Malrock, Ridge Lake and Kanosak targets.

The Baffin project has been inactive since 2013. The exploration camp over this period was subject to damage from weather and the Company received government notice for site cleanup. In November 2016, the Company filed a cleanup plan with the government authorities. The costs for the cleanup were estimated at \$50,000 and accrued in the property costs.

On May 8, 2017, Commander entered into an option agreement with Kivalliq Energy Corporation ("Kivalliq") allowing Kivalliq to acquire a 100% interest in the Baffin Island Property which includes six mineral claims (5,948 hectares) and the signed 2017 Mineral Exploration Agreement ("MEA") with NTI on two blocks within Inuit Owned Land parcel BI-35 ("IOL BI-35") (8,105 hectares).

May 24, 2017

Under the terms of the Option Agreement, Kivalliq will:

- make a cash payment of \$10,000 (received) upon execution of the agreement
- issue an aggregate of 500,000 Kivalliq shares (250,000 shares received) within 12 months of execution of the agreement
- fulfill Commander's Year 1 obligations to NTI under the MEA on IOL BI-35 following execution of the agreement
- issue 500,000 Kivalliq shares at a Bankable Feasibility Study
- make a cash payment of up to \$6,000,000 upon commencement of commercial production

Commander will retain a 0.25% to 0.5% NSR royalty on the Baffin optioned lands. In addition, as part of a data purchase agreement, Kivalliq will grant Commander a 0.25% NSR on Kivalliq's Baffin mineral tenures contiguous to Commander's Baffin optioned lands. Financial terms of the option agreement may be adjusted up until the date of the first royalty payment to reflect the possible impact of any past commercial arrangement or interests.

### Storm Property, Nunavut

On February 18, 2016, the Company completed the sale transaction of the Storm Property with Aston Bay Holdings Ltd. ("Aston") and received 11,000,000 shares of Aston with a fair value of \$2,640,000. These shares are pooled and will be released in four equal tranches of 2,750,000 shares on each anniversary date starting February 18, 2017 to 2020.

Commander retains a 0.875% Gross Overriding Royalty ("GOR") after the property is brought into production. Aston has the right to buy down the GOR from 0.875% to 0.4% for \$4,000,000.

### South Voisey's Bay Property, Labrador

The South Voisey's Bay property is located in central Labrador approximately 80 km due south of the operating Voisey's Bay nickel mine and covers parts of the Pants Lake gabbro complex in the South Voisey's Bay area. The Pants Lake Complex contains host rocks with alteration and nickel mineralization styles that are similar to the Voisey's Bay hosts.

In September 2014, Commander signed a Memorandum of Understanding ("MOU") granting Fjordland Exploration Inc. an option to earn into Commander's South Voisey's Bay nickel property. The Option Agreement provided Fjordland the right to earn up to a 70% interest in Commander's wholly owned South Voisey's Bay Property, located, by funding \$5,500,000 in exploration expenditures, and issuing a total of 2,250,000 shares to Commander. Upon signing the agreement Fjordland subscribed for 2,000,000 shares of Commander at a price of \$0.05, for net proceeds to Commander of \$100,000.

In November 2014, Commander (as Operator) mobilized a crew to Hopedale, Labrador to conduct UTEM and ground mag surveys over the most prospective areas of the claims. The cost of the program was approximately \$250,000 and was completed by mid-December. The ground UTEM covered an area 2.5 km by 2.6 km, with a total of 22.5 line km's surveyed, and the ground mag survey covered 42 line-km. Results of the late 2014 UTEM – EM survey have outlined an intense horizontal conductor and 4 strong subvertical conductors near the Worm Gabbro referred to as the Sandy Target. (see News Release dated March 2, 2015).

In December 2014, the MOU was amended to enable Fjordland to earn up to 75% interest in the property by increasing the Initial Work Commitment from \$250,000 to \$350,000 and increasing the Initial Option interest from 10% to 15%. Fjordland has accordingly earned a 15% interest in the project. In August 2015, the Option Agreement was terminated. On March 23, 2016, Commander transferred 15% interest in the project to Fjordland.

Tenure has been adjusted periodically to accommodate required work commitments while maintaining coverage of the Sandy conductor target.

May 24, 2017

### Omineca Property, BC

The property is located in North Central BC within the prolific copper-gold producing Quesnel terrane.

2012's field program on the Omineca project included reconnaissance prospecting, mapping and geochemical sampling, which identified high copper and gold soil geochemistry within the Abe property. An overlapping anomalous zone of >1,000 ppm Cu (0.1%) in soils and up to 250 ppb Au in soils (0.25 g/t Au) covers over 1.8 km in extent. Anomalous gold values (>50 ppb) extend a further 1.5 km beyond this zone. This gold-copper zone has not been drill tested. In 2015, the claim holdings were reviewed in light of work or cash payment requirements and some non-core claims were not renewed.

During the year ended December 31, 2014, the Company decided not to conduct exploration of the Omineca Properties, but maintained the claims. As a result, the Company wrote off \$230,446 to profit and loss in 2014. A compilation of historical work was undertaken during the first half of 2017.

### **Nepisiguit-Stewart Property, New Brunswick**

In August 2010, Commander optioned the Nepisiguit property to Stratabound Minerals for shares of Stratabound and work commitments. Stratabound could earn an initial 60% interest in the property. Stratabound carried out option work until 2014. In May 2015, Stratabound announced a business combination with Silver Stream Mining Corp. Stratabound under the new management decided not to continue with the project. As a result, the project costs of \$1,131,626 were written off to profit and loss in 2016.

### Olympic Property, Yukon

The property covers a very large (+10 km) hematite breccia complex with numerous copper and copper-gold showings, which are similar in style and age to the Olympic Dam deposit in Australia. Two deep seated magnetic blocks have recently been identified which underlie the western portion of the breccia complex based on ground magnetic surveys. Although some drilling has been completed at Olympic, these new targets have not been evaluated or tested.

The Olympic property is located just within the proposed boundary of the Peel Watershed Plan. In 2014 the Yukon Government presented its plan for the Peel Watershed area. It now encompasses the Olympic Rob Property in a Protected Area designation that could impact the company's ability to access or develop a mine at that site. Request for relief from assessment work was applied for due to the uncertainties surrounding the Peel Watershed plan. The plan has not yet been finalized and is subject to further challenges.

In April 2016, the Yukon Government provided additional relief from assessment work due to the uncertainties surrounding the Peel Watershed plan and the claims are now in good standing until January 1, 2018.

### **MEXICO**

### Pedro Property, Durango

The wholly owned Pedro claims are located approximately 100 kilometres from the city of Torreon. Pedro is comprised of a number of targets including the HP Breccia prospect, a gold soil anomaly extending over a 1,800 x 600m area that coincides with extensive silicified sedimentary breccias and conglomerate, and the Las Lajas gold prospect.

In July 2014, Newmont de Mexico, S.A de C.V terminated an option agreement with Bearing Resources over the Pedro claims. The drill program comprised 11 drill holes totaling 1,744 metres, of which two holes (409 metres) were cored and the remaining drilled by reverse circulation. Areas tested included the HP breccia prospect and its northern extension, a distance of approximately three kilometres. The best results were encountered in hole LP-013-R that returned a core length of 10.5 metres grading 0.51 gram per tonne gold from silicified conglomerate of the Ahuichila formation. For full details of the drill program reference should be made to Bearing Resources news release dated July 3, 2014.

### **INVESTMENT IN MARTIME and SHARE PURCHASE AGREEMENT**

Up until March 31, 2016, Commander held more than 20% of the voting power of Maritime Resources Corp. ("Maritime") through its share ownership. Accordingly, Commander was deemed to have significant influence over Maritime's operations. The investment in Maritime had been accounted for using the equity method and included a pro-rata share of Maritime's income or losses for each reporting period. On April 1, 2016, the Company re-evaluated its investment in Maritime and concluded that significant influence no longer existed due to the consideration factors that the Company has no representation on Maritime's board of directors, no involvement in business decisions, no interchange of management personnel, and no provision of essential technical information. As a result, as of April 1, 2016, Maritime ceased to be an associated company and the investment in Maritime has been designated as an available-for-sale securities and measured at fair value with changes in fair value recognized in accumulated other comprehensive income.

On February 12, 2015, Commander and Maritime entered into an Option to Purchase Shares Agreement granting Maritime or its nominees the option to purchase up to 10,000,000 ("Optioned Shares") of the 11,440,000 common shares that Commander owned at that time.

On April 6, 2016, Commander and Maritime amended the Option Agreement regarding the time frames and purchase prices of the Optioned Shares. On April 7, 2016, Maritime exercised the option and purchased 1,000,000 Option Shares at \$0.14 per share resulting in net proceeds of \$138,600 to Commander. On August 29, 2016, Maritime bought another 1,500,000 Optioned Shares (1,000,000 shares at \$0.14 per share and 500,000 shares at \$0.21 per share) bringing in additional proceeds of \$245,000.

Maritime now has the option to identify third parties to purchase an additional 2,000,000 shares every 6 months until August 31, 2017 at escalating prices of \$0.21 (500,000 shares were purchased), \$0.25 and \$0.30 per share. The final two option prices are further subject to the price being the greater of the option price or 85% of the volume-weighted average price of the common shares for the 10 trading days immediately preceding the applicable option exercise date.

As of the report date, Commander held 6,944,000 shares representing 11.78% of Maritime's total outstanding common shares. In addition to share ownership, Commander holds a 2% NSR royalty on production from Maritime's Green Bay property, other than from the Orion deposit.

On March 2, 2017, Maritime released the results of a Prefeasibility Engineering Study and Economic Assessment (the "Study") completed by WSP Canada Inc. (see Maritime's news release dated March 2, 2017 and posting on SEDAR for additional details and assumptions). The Study concluded the planned project would return an internal rate of return ("IRR") after tax of 34.8% and a net present value (NPV 8%) after tax of \$44.2 million based on a revised geological resource and reserve:

Proven and Probable Reserves: 439,200 tonnes @ 12.70 g Au/t (179,400 oz) from Measured and Indicated Resources: 925,670 tonnes @ 10.60 g Au/t (315,600 oz) and

Inferred Resources: 1,557,000 tonnes @7.53 g Au/t (376,800 oz)

### **SUMMARY OF QUARTERLY RESULTS**

	2017	2016						2015						
	Mar 31	Dec 31		Sep 30		Jun 30		Mar 31		Dec 31		Sep 30		Jun 30
Royalty income	\$ -	\$ 25,000	\$	-	\$	-	\$	-	\$	25,000	\$	-	\$	-
Net (loss) income	\$ (155,859)	\$ (318,971)	\$	(1,278,927)	\$	524,457	\$	1,856,270	\$	(318,971)	\$	(115,743)	\$	(110,992)
Total comprehensive (loss) income	\$ (1,729,739)	\$ (2,095,962)	\$	(1,728,673)	\$	2,620,810	\$	2,171,808	\$	(13,126)	\$	(154,013)	\$	29,402
(Loss) income per share - basic and diluted	\$ (0.001)	\$ (0.003)	\$	(0.012)	\$	0.005	\$	0.018	\$	(0.001)	\$	(0.001)	\$	(0.001)

### **RESULTS OF OPERATIONS**

### For the three months ended March 13, 2017 and 2016

### Net Loss (Income)

For the three months ended March 31, 2017, the Company reported net loss of \$155,859 as compared to net income of \$1,856,270 for the same period in 2016. The net income of the first quarter of 2016 was primarily from the sale of the Storm Property to Aston Bay Holdings Ltd. ("Aston") with a gain of \$1,951,462.

### Expenses

Administration expenses for the three months ended March 31, 2017 and 2016 were \$158,454 and \$59,052 respectively. The higher quarterly expenses of \$99,402 in 2017 were attributable to increases in: (a) accounting and audit, (b) consulting, (c) investor and shareholder relations, (d) salaries and benefits and (e) exploration and evaluation costs. Details of the variances are described below.

Accounting and audit fees increased by \$12,159 due to the higher annual audit fees of \$6,000 relating to the review of the Bearing asset acquisition, and monthly accounting fees for the Mexican subsidiaries, BRZM and Minera BRG.

Consulting fees were higher by \$7,905 as a result of monthly fees to VP Exploration (recruited in June 2016) and VP Corporate Development.

Investor and shareholder relations were higher by \$37,950 due to the engagement of an investor relations consultant, advertising and the participation in mining conferences to increase investor awareness.

Salaries and benefits for 2017 were \$26,613 (March 31, 2016 - \$nil) for the Chief Executive Officer who received no remuneration for the first quarter of 2016.

Exploration and evaluation costs of \$17,192 for the first quarter of 2017 (March 31, 2016 - \$nil) were expenses on inactive projects (Sabin, Baffin, Omineca and Pedro) relating to mapping, data compilation, land rents and claims maintenance.

### Other Income and Expenses

Share of loss and dilution loss in associated company, Maritime, was nil in 2017 (2016 - \$31,448). In April 2016, Commander reevaluated its investment in Maritime and concluded that as of April 1, 2016, it ceased to have significant influence on Maritime. As a result, Commander was no longer required to include a pro-rata share of Maritime's profit or loss for each reporting period.

Gain on sale of exploration and evaluation assets for 2016 was \$1,951,462 from the sale of the Storm property to Aston in return for 11,000,000 common shares of Aston with a fair value of \$2,640,000 on the transaction date.

### LIQUIDITY AND CAPITAL RESOURCES

The Company is in the exploration stage and no revenue has been generated to date. It relies on equity financings, sale of assets and marketable securities to continue its operations. In March 2017, the marketable securities was added with 100,000 shares of K2 Gold Corporation per the option agreement on the Flume property in Yukon. On March 31, 2017, Commander's marketable securities was \$2,623,280 (December 31, 2016 - \$4,162,160). The decrease of \$1,538,880 was primarily from the decrease in the fair values of the securities.

At March 31, 2017, the Company had cash and cash equivalents of \$871,369 (December 31, 2016 - \$998,429) and working capital of \$2,544,809 (December 31, 2015 - \$2,701,559). The Company has sufficient funding to meet its operational requirements for the coming fiscal year.

### **OUTSTANDING SHARE DATA**

At May 24, 2017, the Company had 115,302,521 common shares issued and outstanding, 11,175,000 stock options with exercise prices from \$0.05 to \$0.10, expiring between 2017 and 2021, and 2,000,000 warrants with an exercise price of \$0.05, expiring on October 20, 2017.

### **COMMITMENT**

The Company has a commitment of \$13,875 for its Vancouver office lease which expires on August 31, 2017. Commander is obligated to make monthly rent payments of \$2,775. The Company has the option to terminate the lease with two months' notice.

### **OFF BALANCE SHEET ARRANGEMENTS and PROPOSED TRANSACTIONS**

As of the report date, the Company has no off balance sheet arrangements or proposed transactions.

### **RELATED PARTY TRANSACTIONS**

### **Mineral Asset Acquisition**

On September 23, 2016, the Company acquired all of the issued and outstanding shares of Bearing Resources Ltd.'s wholly owned subsidiaries, BRZ Mex Holdings Ltd. ("BRZM") and Minera BRG SA de CV ("Minera BRG"). The asset acquisition was a related party transaction with the Chief Executive Officer being a common executive/director for both Bearing and Commander.

### **Services**

The Company's related parties consist of companies controlled by certain of the Company's directors. The fees and expenses with those companies for the months ended March 31, 2017 and 2016 are as follows:

	2017	2016
Consulting (former director)	\$ -	\$ 11,000
Office rent and charges	9,131	9,381
	\$ 9,131	\$ 20,381

At March 31, 2017, included in accounts payable and accrued liabilities was an amount due to a related party of \$618 (2016 – \$nil) for office administration to a company related by a director in common.

### **Compensation of Key Management**

Key management includes the Company's directors, the President and Chief Executive Officer, VP Exploration, VP Corporate Development, Chief Financial Officer and Corporate Secretary. Their remuneration, including share-based payments is as follows:

		For the three months end					
	Nature of March			rch 31	31,		
	Compensation		2017		2016		
President and Chief Executive Officer	Salary and benefits	\$	26,613	\$	-		
Vice President, Corporate Development	Consulting		7,500		-		
Vice President, Exploration (1)	Consulting and	10.020					
vice President, Exploration ·	project expenses		19,838		-		
Chief Financial Officer	Accounting and audit		8,000		7,500		
Corporate Secetary	Consulting		9,000		4,500		
			70,951		12,000		
Share -based payments	Stock option		-		11,787		
		\$	70,951	\$	23,787		

<sup>(1) \$12,338</sup> of the consulting fees were related to geological consulting in exploration and evaluation costs and the \$7,500 were for the fees as VP Exploration.

### **NEW ACCOUNTING POLICIES**

### New, Amended and Future Accounting Policies

Standards and amendments issued but not yet effective for the three months ended March 31, 2017, are as follows:

IFRS 9, Financial Instruments addresses classification, measurement and recognition of financial assets and financial liabilities. In July 2014, IASB completed the final version of the Standard which replaces IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 provides a revised model for classification and measurement, a single, forward-looking 'expected loss' impairment model and a reformed approach to hedge accounting. The effective date for this standard is for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Company does not expect any impact from this amendment.

IFRS 16, Leases, addresses accounting for leases and lease obligations and replaces the leasing guidance in IAS 17, Leases. The standard requires lessees to recognize assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. The standard is effective for annual periods beginning on or after January 1, 2019 with early adoption permitted. The Company does not expect any impact from this standard.

### FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

### **Fair Value**

The Company has classified its financial instruments as follows:

- Cash and cash equivalents as FVTPL
- Marketable securities as AFS
- Receivables as loans and receivables
- Accounts payable and accrued liabilities and advance from optionee as other financial liabilities

The carrying values of amounts receivable, accounts payable and accrued liabilities, and advance from optionee approximate their fair values due to the short-term to maturity of these financial instruments. The Company classifies its financial instruments measured at fair value at one of three levels according to the relative reliability of the inputs used to estimate the fair value. The Company's cash and cash equivalents, and marketable securities are classified as a level 1 financial asset. The fair value hierarchy is as follows:

Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Company is exposed to the following risks related to financial instrument:

### **Liquidity Risk**

Liquidity risk is the risk that the Company will encounter difficulty satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities to ensure it will have sufficient liquidity to meet obligations. At March 31, 2017, the Company had cash and cash equivalents of \$871,369 and working capital of \$2,544,809. The Company has sufficient funds to continue operations for the next twelve months.

### **Credit Risk**

Credit risk is the risk that if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk is equal to the carrying value of cash and cash equivalents and amounts receivable. Amounts receivable primarily comprises GST receivable. To minimize the credit risk, Commander places cash and cash equivalents at high credit rating financial institution.

May 24, 2017

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is exposed to price risk with respect to its marketable securities. A 10% change in the share prices would affect the investments and comprehensive loss by approximately \$262,328. In September 2016, the Company acquired exploration and evaluation assets located in Mexico and may be subject to future foreign currency risk. The risk as at March 31, 2017, was insignificant.

### **RISKS AND UNCERTAINTIES**

Mineral exploration involves high degree of risks. There is a significant probability that the expenditures made in exploring the Company's properties will not result in discoveries of economically viable quantities of minerals. Ongoing costly expenditures are required to locate and estimate ore reserves, which are the basis for further development of a property. Capital expenditures to attain commercial production stage are also very substantial. The principal risks faced by the Company are as follows:

### **Exploration**

The Company is seeking mineral deposits of commercial quantities on its exploration projects. There can be no assurance that economic concentrations of minerals will be determined to exist on the Company's property holdings. The failure to establish such economic concentrations could have a material adverse outcome on the Company and its securities.

### Market

The Company's securities trade on public markets and the trading value thereof is determined by the evaluations, perceptions and sentiments of both individual investors and the investment community taken as a whole. Such evaluations, perceptions and sentiments are subject to change; both in short term time horizons and longer term time horizons. An adverse change in investor evaluations, perceptions and sentiments could have a material adverse outcome on the Company and its securities.

### **Metal Prices**

The mining industry in general is intensely competitive and there is no assurance that, even if commercial quantities of mineral resource are discovered, a profitable market will exist for the sale of it. The price of various metals has experienced significant movements over short periods of time, and is affected by numerous factors beyond the control of the Company, including international economic and political trends, expectations of inflation, currency exchange fluctuations, interest rates, global or regional consumption patterns, speculative activities and increased production due to improved mining and production methods. The supply of and demand for metals are affected by various factors, including political events, economic conditions and production costs in major producing regions. There can be no assurance that the price of any metal will be such that the Company's exploration and evaluation assets can be mined at a profit.

### Title

Although the Company has exercised the usual due diligence with respect to title to properties in which it has interests, there is no guarantee that title to the properties will not be challenged or impugned. Commander's exploration and evaluation asset interests may be subject to prior unregistered agreements or transfers or land claims, and title may be affected by undetected defects.

### Financing

Exploration and development of mineral deposits is an expensive process, and frequently the greater the level of interim stage success the more expensive it can become. The Company has no producing properties and generates no operating revenues; therefore, for the foreseeable future, it will be dependent upon selling equity in the capital markets to provide financing for its continuing substantial exploration budgets. While the Company has been successful in obtaining financing from the capital markets for its projects in recent years, there can be no assurance that the capital markets will remain favourable in the future, and/or that the Company will be able to raise the financing needed to continue its exploration programs on favourable terms, or at all. Restrictions on the Company's ability to finance could have a material adverse outcome on the Company and its securities.

### **Share Price Volatility and Price Fluctuations**

May 24, 2017

In recent years, the securities markets in Canada have experienced a high level of volatility, and the share prices of securities of many companies, particularly junior exploration companies like the Company, has experienced wide fluctuations which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. There can be no assurance that these price fluctuations and volatility will not continue to occur.

### **Key Personnel**

The Company's exploration efforts are dependent to a large degree on the skills and experience of certain of its key personnel. The Company does not maintain "key man" insurance policies on these individuals. Should the availability of these persons' skills and experience be in any way reduced or curtailed, this could have a material adverse outcome on the Company and its securities.

### **Environmental and Other Regulatory Requirements**

The current or future operations of the Company, including development activities and commencement of production on its properties, require permits from various governmental authorities and such operations are and will be subject to laws and regulations governing prospecting, development, mining, production, exports, taxes, labour standards and other matters.

Companies engaged in the development and operation of mines and related facilities generally experience increased costs, and delays in production and other schedules as a result of the need to comply with applicable laws, regulations and permits. There can be no assurance that approvals and permits required to commence production on its properties will be obtained on a timely basis, or at all. Failure to comply with applicable laws, regulations, and permitting requirements may result in enforcement actions there under, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions.

Amendments to current laws, regulations and permits governing operations and activities of mining companies could have a material adverse impact on the Company and cause increases in capital expenditures or production costs or reduction in levels of production at producing properties or abandonment or delays in development of new mineral exploration properties. To the best of the Company's knowledge, it is currently operating in compliance with all applicable environmental regulations.
